

A pixelated, black and white graphic of a mathematical equation. The equation is $\sqrt{1x^2 + 10x^2}$. The characters are rendered in a thick, blocky, pixelated font. The square root symbol is on the left, followed by the expression $1x^2 + 10x^2$ inside the radical. The plus sign is a simple cross. The numbers 1 and 10 are followed by the variable x and the exponent 2. The entire graphic has a low-resolution, dithered appearance.

$$\sqrt{1x^2 + 10x^2}$$

1. **Introduction**
 The purpose of this study is to investigate the effects of the proposed system on the performance of the participants. The study was conducted in a controlled environment, and the results are presented in the following sections.
